

**NATIONAL INSTITUTE OF TECHNOLOGY PUDUCHERRY**  
 (An Institute of national importance under MHRD, Govt. of India)  
**KARAIKAL-609 609**

**TIME TABLE – SEMESTER EXAMINATIONS (ODD SEMESTER, JULY 2017 to DECEMBER 2017)**

| S.No  | Date                                       | Time                | Subject code and Title |   |
|-------|--|---------------------|------------------------|---|
| 1     | 09.11.2017                                 | 09.30 am – 12.30 pm | MA201                  | Discrete Mathematics (CSE)                        |
|       |  |                     | MA201                  | Mathematics-III (ECE)                             |
|       |  |                     | MA201                  | Mathematics-III (EEE)                             |
|       |  |                     | MA211                  | Mathematics –III (Mech.)                          |
|       |  |                     | CS301                  | Systems Programming                               |
|       |  |                     | EC301                  | Statistical Theory of Communication               |
|       |  |                     | EE301                  | Power System Analysis                             |
|       |  |                     | ME301                  | Engineering Measurements                          |
|       |  |                     | MA401                  | Operations Research (CSE)                         |
|       |  |                     | EC401                  | Networks and Protocols                            |
|       |  |                     | HM401                  | Management Concepts and Practices (EEE)           |
|       |  |                     | ME401                  | Industrial Organisation and Engineering Economics |
| 2     | 09.11.2017                                 | 01.30 pm – 04.30 pm | HM101                  | Functional English                                |
|       |  |                     | CS601                  | Mathematical Foundation of Computer Science       |
|       |  |                     | RMD601                 | Research Methodology                              |
|       |  |                     | CSC609                 | Comprehensive Viva-Voce                           |
| 3     | 10.11.2017                                 | 09.30 am – 12.30 pm | CS201                  | Object Oriented Programming                       |
|       |  |                     | EC201                  | Signals and Systems                               |
|       |  |                     | EE201                  | Digital Logic Circuits                            |
|       |  |                     | EE223                  | Applied Electrical Engineering (Mech.)            |
|       |  |                     | CS303                  | Operating Systems                                 |
|       |  |                     | EC303                  | Digital Signal Processor and Application          |
|       |  |                     | EE303                  | Control Systems                                   |
|       |  |                     | ME303                  | Mechatronics                                      |
|       |  |                     | CS401                  | Distributed Computing                             |
|       |  |                     | EC403                  | Communication Switching Systems                   |
|       |  |                     | EE401                  | High Voltage Engineering                          |
| MA401 | Numerical Methods and optimization (Mech.) |                     |                        |   |

|        |                            |                     |        |  |
|--------|----------------------------|---------------------|--------|--|
| 4      | 10.11.2017                 | 01.30 pm – 04.30 pm | MA101  | Differential Calculus and Algebra                |
|        |                            |                     | CS603  | Advanced Algorithms and Data Structures          |
|        |                            |                     | MAD601 | Advanced Mathematics                             |
|        |                            |                     | HMD601 | Research Documentation                           |
| 5      | 13.11.2017                 | 09.30 am – 12.30 pm | CS203  | Data Communication                               |
|        |                            |                     | EC203  | Network Theory                                   |
|        |                            |                     | EE203  | Electric and Magnetic Circuit Theory             |
|        |                            |                     | EC217  | Applied Electronics Engineering (Mech.)          |
|        |                            |                     | CS305  | Microprocessors And Microcontrollers             |
|        |                            |                     | EC305  | Communication Theory                             |
|        |                            |                     | EE305  | Linear Integrated Circuits                       |
|        |                            |                     | ME305  | Thermal Engineering-I                            |
|        |                            |                     | CS403  | Network Security                                 |
|        |                            |                     | EC405  | Fiber Optic Communication                        |
|        |                            |                     | EE403  | Solid State Drives                               |
|        |                            |                     | ME403  | Theory of Metal cutting                          |
| 6      | 13.11.2017                 | 01.30 pm – 04.30 pm | PH101  | Engineering Physics                              |
|        |                            |                     | CH101  | Chemistry  |
|        |                            |                     | CS605  | Advanced Concepts in Operating Systems           |
|        |                            |                     | HMD602 | Area Studies                                     |
|        |                            |                     | CHD601 | Polymers and Nano composites                     |
|        |                            |                     | ECD601 | Advanced Image Processing                        |
| 7      | 14.11.2017                 | 09.30 am – 12.30 pm | PHD602 | Material Characterization Techniques             |
|        |                            |                     | CS205  | Data Structures and Algorithms                   |
|        |                            |                     | EC205  | Engineering Electromagnetics                     |
|        |                            |                     | EE205  | Electromagnetic Theory                           |
|        |                            |                     | ME201  | Production Technology - I                        |
|        |                            |                     | CS307  | Software Engineering                             |
|        |                            |                     | EC307  | Antennas and Propagation                         |
|        |                            |                     | EE307  | Signals and Systems                              |
|        |                            |                     | ME307  | Automobile Engineering                           |
|        |                            |                     | CS405  | Principles of Compiler Design                    |
|        |                            |                     | EC407  | Microwave Electronics                            |
| EE405  | Electrical Machine Design  |                     |        |  |
| 8      | 14.11.2017                 | 01.30 pm – 04.30 pm | ME461  | Computational Fluid Dynamics                     |
|        |                            |                     | CE101  | Engineering Mechanics                            |
|        |                            |                     | EE101  | Basics of Electrical and Electronics Engineering |
|        |                            |                     | CS607  | Advanced Network Principles and Protocols        |
|        |                            |                     | HMD603 | Literary Theory and Critical Approaches          |
|        |                            |                     | HMD605 | English Language Teaching and Learning           |
|        |                            |                     | CHD602 | Carbon Nanotechnology                            |
| ECD602 | Advanced Speech Processing |                     |        |  |

|       |                                  |                     |        |   |
|-------|----------------------------------|---------------------|--------|---|
| 9     | 15.11.2017                       | 09.30 am – 12.30 pm | CS207  | Digital Computer Fundamentals                           |
|       |                                  |                     | EC207  | Semiconductor Physics and Devices                       |
|       |                                  |                     | CS231  | Data Structures and C++ (EEE)                           |
|       |                                  |                     | ME203  | Strength of Materials                                   |
|       |                                  |                     | CS309  | Graph Theory  |
|       |                                  |                     | EC309  | Analog Integrated Circuits                              |
|       |                                  |                     | EE309  | Analog Electronic circuits                              |
|       |                                  |                     | ME313  | Production Drawing and Cost Estimation                  |
|       |                                  |                     | CS461  | Advance Java Programming (E-I)                          |
|       |                                  |                     | EC453  | ARM System Architecture (E-II)                          |
|       |                                  |                     | EE453  | Flexible AC Transmission Systems                        |
|       |                                  |                     | ME473  | Solar Power Engineering                                 |
| 10    | 15.11.2017                       | 01.30 pm – 04.30 pm | ME101  | Basic Mechanical and Civil Engineering                  |
|       |                                  |                     | CE102  | Basic Energy, Environment, and Agricultural Engineering |
|       |                                  |                     | CS651  | Cloud Computing (E-II)                                  |
|       |                                  |                     | HMD604 | Professional Communication in English                   |
| 11    | 16.11.2017                       | 09.30 am – 12.30 pm | CS209  | Computer Organization and Architecture                  |
