CIRCULAR

Warning on 'GAJA' cyclone – reg

It is to inform that the cyclonic storm 'GAJA' over West central and adjoining East central & South Bay of Bengal has moved west-south-westwards about 540 km east of Chennai (Tamil Nadu) and 640 km northeast of Nagapattinam (updated at 8:30 AM, 14-11-2018). **It is likely to move west-south-westwards and intensify further into a Severe Cyclonic Storm during next 24 hours.**

For next two days, the sea condition is very likely to be rough to very rough along and off Tamil Nadu-south Andhra Pradesh coasts from 14th November evening and high on along & off Tamil Nadu & Puducherry coast on 15th November morning onwards. Storm surge of height of about 1.0 meter above astronomical tide is very likely to flood into low lying areas of Nagapattinam, Thanjavur, Pudukkottai and Ramanathapuram districts of Tamil Nadu and **Karaikal district of Puducherry at the time of landfall.**

All the students, employees and their dependents are hereby strictly advised not to venture into the coastal area, water logging area between 14th November 2018 to 17th November 2018.

The above advisory is given based on the red alert given by the Meteorological Department.
