NOTICE

17-5-2021

In recent days, the entire nation is passing through the worst phase of the pandemic COVID-19 with the increase in the number of cases. As the nation stands together to fight against it, we too take care of our students and their wellbeing these days. In this regard, an online meeting was held on 16-5-2021 with council members, class representatives, and associate dean-student welfare, and decided to pass on the following guidelines.

- Please go through the Institute website for all notices and updates.
- Go through the Group health insurance policy details: http://nitpy.ac.in/student_welfare/Insurance/index.html
- Health insurance covers COVID-related health issues for hospitalization cases. Although cashless treatment is available as per the insurance, due to scarcity of the availability of the beds and other infrastructure, at this time, the insurance coverage is available on a reimbursement basis only.
- In case of hospitalization, one has to inform to maheswarapandian.r@mediassistindia.com/ SMS/ call to the telephone number 7094496963. Share your Name as per records, Roll Number, and Hospital details (it's better you share these details with your parents/ siblings).
- For the COVID related treatments, the possible maximum reimbursement may be restricted to 25 to 30% of the whole expenses (case to case this may vary).
- A dedicated Google form has been shared with you <https://forms.gle/u2q6sygiYwFMiXEe8> to report the distress experienced by you and on behalf of your friend. This will enable us to be with your difficult times to a possible extent and stay connected.
- Not to believe or follow unauthorized news content, social media messages which disturb emotional wellbeing. Further not to share such content among friends.
- For any slight symptoms like COVID, neither neglect it nor follow self-medication, rather report at your nearest Primary health center or your family physician for immediate treatment.
- You may contact the undersigned/ your HODs/ Mentor and any of your favorite faculty or staff to share your emotional distress at any time. If you need any expert support for your emotional wellbeing, please contact campus@yourdost.com and hotline phone number 08047097654
